

ASSISTANT INSTALLER

as-sis-tant in-stall-er

/əˈsɪstənt, ɪnˈstɒlər/

(n) someone who takes on a new challenge every day; using skill, expertise, & lead-advice to accurately and efficiently bring woodworks to life in unique commercial settings.

The Assistant Installer works directly with the Lead Installer and production team to deliver and install our custom woodworks projects in commercial settings.

What You'll Do

- Assist Lead Installer with loading, delivering, and unloading products and tools to install cabinets, caseworks and architectural millworks.
- As we evolve as a company, your responsibilities will continue to evolve; including learning and adapting to software advancements.
- Be available as a resource for Lead Installer and production team who need assistance with completing projects.

Essentials We're Looking For

- Punctual, reliable, ability to regularly lift and move 100+ pounds.
- Interest in a changing environment, learning and gaining new knowledge, job flexibility, not knowing what challenges tomorrow might bring.
- Self-motivation, works well with others and independently, emulates a positive attitude, provides quality customer service, works productively, thinks critically with complex problem solving and evaluation skills.
- Ability to multi-task and work well under changing conditions on a variety of projects, working accurately and quickly under pressure, prioritize and work flexibly to meet deadlines.

Bonus Points

- Health card/CDL.
- Experience with general woodworking, manufacturing, fabrication, construction or designing.
